

Tooele Army Depot

BRAC 2005 Recommendation:

BRAC 05 recommendations transform Tooele Army Depot into a multi-functional Munitions Center of Excellence that provides major support to Joint readiness through strong Munitions Deployment Networks, Storage and Distribution, Munitions Maintenance, and Munitions Demilitarization. These installations are the face to the war-fighter, providing support from the installation to the Fox-Hole. This effort was accomplished through the elimination of excess and redundancy within the industrial base. Costs identified to modernize remaining infrastructure will allow us to move out of a Cold War environment into one that is capable of supporting 21st century requirements for the conventional munitions.

Gains:

- Storage and Demilitarization functions from Hawthorne Army Depot
- Storage functions from Sierra Army Depot
- Storage igloos and magazines from Deseret Chemical Depot

Losses:

- None
